North Place Delivery model

- 4.10 Our Integrated Care Northamptonshire (ICN) system operating model is reflected in the diagram below with the North Place being a key component.

- 4.11 In North Northamptonshire, we aim to deliver our ten ambitions of the strategy through a joined-up approach across all the organisations and services involved in supporting our population and communities. This will be through a new very local approach with our communities central to our operating model – our local area partnerships (LAPs).
- 4.12 The North Place model consists of seven Local Area Partnerships LAPs which mirror the current electoral ward boundaries and population sizes and four area Community Wellbeing Forums CWFs.
- 4.13 The operating model has been developed with system partners to date through the North Place Delivery Group accountable to the North Health and Wellbeing Board.
