This is below the 1,875 local housing need (LHN) larget set by government. As this target was released in March 2022 (during the monitoring year) the previous years' target should be used (1,784), however the number of homes delivered still clearly falls shout of this. Delivery of new homes is primarily undertaken by developers in the private sector, this can fluctuate dependent on the strength of the market, and the position with some sites in terms of infrastructure delivery or house building on site. NNCS role is to seek to resume thas a healthy Pier feer Land Stuppi of available sites. This is particularly apparent during a time of end of year exams are taking place. The EIP (Educational Inclusion & Partnership) Team are engaging with primary schools- particularly where there are higher suspensions or potential suspensions being flagged up to provide support and offer services that may help the school and / or parent. The collaborative work and drive from the EIP Team with schools is having a positive effect.
