

North Northamptonshire Council Performance Report - August 2023

Key to Performance Status Colours

Progress Status Key:
Green - On target or over-performing against target
Amber - Under-performing against target but within 5% corporate tolerance (or other agreed tolerance as specified)
Red - Under-performing against target by more than 5% (or other agreed tolerance as specified)
Dark Grey - Data missing
Grey - Target under review
Turquoise - Tracking Indicator only
Children's Trust Progress Status Kev:

Directi	ion of Travel Key
An acc	eptable range = within 5% of the last period's performance
↑ G	Performance has improved from the last period – Higher is better
₩G	Performance has improved from the last period – Lower is better
↑	Performance has deteriorated but is still on or above target or within an acceptable range of 5% of the last period – Lower is better
→	Performance has stayed the same since the last period
•	Performance has deteriorated but is still on or above target or within an acceptable range of 5% of the last period – Higher is better
♠R	Performance has deteriorated from the last period – Lower is better
₩R	Performance has deteriorated from the last period – Higher is better
①	Actual increased - neither higher or lower is better
\Rightarrow	Actual has stayed the same since the last period - neither higher or lower is better
Û	Actual decreased - neither higher or lower is better

	<u> </u>
Children's Trust Progress Status Key:	Children's Trust Direction of Travel Key
Green - At target or better	↑G Performance improved since last month
Amber - Below target - within tolerance	→ Performance the same as last month
Red - Below target - outside tolerance	→A Performance declined since last month
Grey - No RAG	

Performance	Terminology key
TBC	To be confirmed
TBD	To be determined
n/a	Not applicable
Actual	The actual data (number/percentage) achieved during the reporting period
Benchmark	A comparator used to compare the Council's performance against. The 2020/21 average for Unitary Councils in England has been used where available unless otherwise stated.
Numerator	Number as part of the percentage calculation which shows how many of the parts indicated by the denominator are taken. See example below.
Denominator	The total number which the numerator is divided by in a percentage. See example below.
EXAMPLE Performance Indicator	% Calls answered
Numerator	Number of calls answered
Denominator	Total number of calls received

Better, brighter futures	BBF05 (KPI 2)	40	Now har you you had see of wo per yer fee har Target ——Actual 2022/23	Yes (also contractual) - target is contractual but not statutory	21.9% Mean for Northamptonshire Children's Services LAIT near neighbours 2021/22	(2,467)	25.8% (3,747)	28% (703)	23.3% (924)	25.4% (840)	22.6% (690)	31.0% (590)	↓ A	Lower is better	29%	25% - 40%	Re-referrals have declined this month but within tolerance. It remains an area of ongoing focus with audit and review for learning. The front door review and subsequent action plan which will be developed with the partnership in October is expected to reduce re-referrals going forward. The dedicated education roles in MASH (Multi-Agency Safeguarding Hub) are working positively with schools to ensure appropriate referrals, and positive feedback from schools about their roles is increasing. Work with all partners continues to ensure appropriate and robust application of thresholds. Steps have been taken to strengthen the Early Help partnerships with Partnership Support Team (Early Help MASH) being placed in the MASH pods and a leaner step down process. It is anticipated that the strengthened model in MASH and developments in Child & Family Support Services (CFSS)/Early Help will continue to support appropriate reduction going forward in addition to the external front door review. The high number of cases stepping down is presenting challenges in regards to capacity in Family Support/Early help partnership. COVID: and cost of living crisis has an impact on volume and quality of re-referrals (Trust commentary).
Better, brighter futures	BBF06 (KPI 3)	% of single assessments authorised within 45 working days	0% 5% 5% 6% 6% 6% 6% 6% 6% 6% 6% 6% 6% 6% 6% 6%	Yes (also contractual) - target is contractual but not statutory	88% We are in the process of identifying more up to date benchmark data for this PI.	95% (2,792)	93.3% (4,857)	94% (774)	92.7% (928)	92.7% (1,090)	95.3% (1,032)	92.2%	↓ A	Higher is better	85%	85% - 95%	Assessment timescales remain consistently above target and national average, decreasing to 92.2% this month. All managers monitor this very closely via daily reports. A narrative is provided for cases that go beyond 45 days and this remains a very small minority. Whilst staffing has presented challenges due to vacancies and staff performance issues in Duty & Assessment Team (DAAT), there is now a positive move towards more appropriate staffing levels being achieved and sustained. In addition to timeliness, we work on increasing the quality of assessments and more effective use of Signs of Safety (SofS) in our interventions (Trust commentary).
Better, brighter futures	BBF07 (KPI 8)	% Children in care with three or more placements in the previous 12 months	4% 3% 2% 1% 0% 9% Actual 2023/24 Actual 2022/23	Yes (also contractual) - target is contractual but not statutory	10% Mean for Northamptonshire Children's Services LAIT near neighbours 2021/22	11.1% (1,191)	12.1% (1,179)	10.5% (1212)	10.6% (1,205)	11.1% (1,191)	11.3% (1,191)	12.1% (1,179)	L A	Lower is better	10%	5% - 15%	Performance has declined to 12.1% this month. Consideration of various options to improve sufficiency is continuing, including exploration of capital investment, additional in house resources, as well as improved engagement with the market. Planning permission granted for two new emergency homes and valuing care project (Circle2Success) demonstrating positive impact. Through improved edge of care arrangements, the close oversight on admissions to care, and the developments within placement sufficiency, we are confident we can reduce the need for child to move home as frequently. Positively, Children's Home Capital Programme application with the Department for Education (DfE) has been successful, and that should also support progress in this area. COVID: Placement sufficiency remains a challenge, sustained performance in this work should also have a positive impact on KPI 7 (Trust commentary).
Better, brighter futures	BBF08 (KPI 9)	% of young people now aged 17 - 21 and in employment, education or training who were looked after when aged 16	Apr May Jun Jul Aug Sep Oct Nov Dec Jan Feb Mar Target — Actual 2022/23 — Actual 2023/24	Yes (also contractual) - target is contractual but not statutory	56.95% Mean for Northamptonshire Children's Services LAIT near Neighbours 2021/22	62.7% (684)	63.3% (689)	64% (687)	63% (686)	62.7% (684)	62.9% (685)	63.3% (689)	↑G	Higher is better	55%	50% - 60%	This month has seen performance increase slightly to 63.3%, still comparing favorably with 58% across England. Focus in this area continues to be driven through arrangements with local colleges, the virtual school and the senior personal advisor (Education and Employment) with further review of contracted arrangements (Prospects) to be undertaken to ensure we have the best approach/ support for young people. Work with councils to ensure Education, Employment & Training (EET) opportunities and support is in place for our care leavers. COVID: has had a significant impact on the mental health and wellbeing of care leavers, targeted work support care leavers to access EET (Trust commentary).
Better, brighter futures	BBF09 (KPI 10)	% of young people now aged 17 - 21 and living in suitable accommodation who were looked after when aged 16	0% 5% Actual 2023/24	Yes (also contractual) - target is contractual but not statutory	89% (All English Authorities 2020/21 - LG Inform)	95.5%	93.3% (689)	95% (687)	97.2% (686)	95.5% (684)	94.7% (684)	93.3% (689)	↓ A	Higher is better	90%	85% - 95%	Performance for this month decreased to 93.3%, still above the target of 90%. We know that we have some young people in unsuitable accommodation, including a number of young people sentenced to custody, and some who have no accommodation at all. We work hard to address this, tenaciously seeking to engage with young people who may see our attempts at support as interference. The care leavers housing protocol is in place and work is being progressed under the governance of a strategic group; this includes a review of the housing panels and engagement with the housing associations. Helpful discussions with colleagues in the Councils is placing the housing sufficiency needs of care leavers as central to their housing strategies. The Accommodation Transitions Panel is now in operation and ensures all young people have a comprehensive, accommodation-focused, shared, and timely transition plan (Trust commentary).
Better, brighter futures	BBF27 (KPI 5)	% of initial child protection conferences held within 15 days of a strategy discussion being initiated	0% 0% 0% 0% 0% 0% 0% 0% 0% 0% 0% 0% 0% 0	but not statutory	84.3% Mean for Northamptonshire Children's Services LAIT near neighbours 2021/22	(343)	27.0% (560)	13% (134)	47.1% (104)	56.2%	21.8% (87)	5.4% (130)	L A	Higher is better	81%	66% - 86%	Performance declined this month, and is well below where we need it to be. High volumes of initial child protection conferences (ICPC) demand continues (August – 130). It is positive to have 83% ICPC conversion to Child Protection (CP) Plans. June / July data is negatively impacted by high numbers of 1st review Review Child Protection Conferences (RCPC's) required after record high number of ICPCs in April; this impacted on CP Chair availability for ICPC's in-month. All new Child Protection Conferences (CPC)'s need to be planned into already busy diaries - CP Chair average caseload remains above 100 (well above recommended levels). Average no. days from strategy discussion initiated to ICPC in August = 28. Performance is negatively impacted by 3 business support vacancies in CP business support, making SQAS capacity the main reason for late ICPC's in August. Recruitment is in progress. Late convening requests continue to contribute to this, and are spread between Safeguarding and DAAT teams. DAAT business support gaps continue to present challenges and an additional post will be in place from the end of the month. ICPC's are tracked and referring managers are challenged to identify causes of delay and ensure individual, team or wholeservice learning is addressed. Staff changes continue to impact on performance as new staff become familiar with local procedures / systems. DAAT managers support Social Workers with additional training on process, recording and requesting strategy discussions and convening conferences. A refreshed duty CP Chair system is in place to assist referring managers with threshold decision-making and this is promoted to all teams (Trust commentary).

Better, brighter futures	BBF28	Number of children with a Child Protection Plan	300 Actual 2023/24	Yes (565 Mean for Northamptonshire Children's Services LAIT near neighbours 2021/22	714	711	680	687	714	702	711	Û	No polarity	TBD		771 children were subject to a Child Protection Plan (CPP) in August 2023. This marks an increase in CPPs compared with last month (+69 children). Prior to May 2023, there were less than 700 children were in the cohort between. However, the last three months have registered between 702-771 children with CPPs. There are 131 children more in the CPPs cohort than one year ago and 125 more children than two years ago. The cohort has increased by a net 95 children since the beginning of the academic year 2022-23. By comparison, the corresponding period in the last two years saw decreases instead. 81.7% of Child Protection (CP) visits were on time in August 2023. This marks a decline since last month (91.0% in July 2023). In the last twelve months, an average of 86.9% of children on CP plans has an up-to-date CP visits. An average of 86.8% of visits have been on time in the last six months, slightly below the averages of the corresponding periods of last year (90.2%) and two years ago (87.5%).
Better, brighter futures	BBF29	Number of children in care	1,000 Apr Nay July 200 Seb Oct 400 Dec 201 Cep Nat	Yes (1,050 Mean for Northamptonshire Children's Services LAIT near neighbours 2021/22	1,191	1,179	1,212	1,205	1,191	1,191	1,179	Ţ	No polarity	TBD		The number of children in care was 1,179 at the end of August 2023. There are now 47 children less in care than a year ago. August 2023 marks the third consecutive month where less than 1,200 children have been recorded in this cohort. Prior to July 2022, the cohort had never exceeded 1,200. However, between July 2022 and May 2023, the number of children in care ranged from 1,205 to 1,241. August 2023 marks the third consecutive month where less than 1,200 children have been recorded in this cohort. So far in 2023-24, an average of 1,195 children have been reported to be in care. An average of 1,216 children have been reported to be in care in the last 12 months, a slightly higher outturn compared with the average during the same period of last year (1,184) and two years ago (1,150). 120 children in care were also identified in the Education Health Care (EHC) cohort this month (ICF commentary).
Learning, Skills & E	Education																
Better, brighter futures	BBF18b	% of EHC (education health care) plans completed in month issued within 20 weeks (including exceptions)	100% 80% 60% 40% 20% ————————————————————————————————	(part of SEN 2 return)	37.8% Mean for NNC Children's Services LAIT near neighbours 2021/22		73.8% 203 out of 275	69.6% 39 out of 56	46.7% 21 out of 45	83.7% 36 out of 43	74.1% 43 out of 58	87.7% 64 out of 73	↑ G	Higher is better	Target under review	n/a	The team have worked hard over the past three months to develop a data dashboard and a weekly leadership team meeting to monitor key areas of team performance and highlight any issues that may prevent the team from achieving. This strategy alongside the piloting a new organisation of the team which was started in July 2023 has hugely benefitted the team and its ability to write plans and achieve the 88.9%. This figure does not reflect the number of plans finalised by naming a specific school. The team have systems and processes in place to complete the 20-week process including naming however the team are unable to achieve this at this time due to the impact of late advices. The team are working collaboratively with the Educational Psychology (EP) services and health to try to improve the timeliness of returned advices (Service commentary).
Better, brighter futures	BBF19 (E1)	Percentage of school age Child/Children in Care (CiC) who had a PEP (personal education plan) in the previous academic term.	100% 98% 96% 94% 92% Spring Summer Autumn Spring Summer 22 22 22 23 23 Actual 2022/23 Trend		n/a	n/a Termly reported	95% 342 out of 362	95% 333 out of 352	n/a Termly reported	n/a Termly reported	n/a Termly reported	94% 342 out of 362		Higher is better	95%	90% - 95%	PEP (personal education plan) compliance at statutory school age has dipped below the 95% target. The downward trend mirrors an upward trend in the number of children and young people in care. The number of PEPs completed has actually increased since last term. We will work with, and support our partners (Northamptonshire Children's Trust and education settings across the country) to meet the challenges presented by the increase in numbers. PEP completion rates for the early years subgroup can see big % swings due to small cohort numbers. PEP completion rates also reflect the case-by-case decisions made by the corporate parent as to whether a child should attend nursery provision. To support this subgroup further, for this academic year the Virtual School (VS) has filled a previously vacant achievement officer post, which will focus exclusively on the early years cohort. PEP performance at Post 16 has been sustained and PEP quality improved despite an increase in the cohort size. Challenges remain in increasing compliance to statutory school age levels. Stability in the VS Post 16 work force should assist in this aim, however if recent increases in the cohort size are sustained improving compliance further could prove challenging. The Virtual School provide an effective system and process that ensures that PEPs are completed consistently. This includes: commissioning and maintaining an online PEP system, ensuring those who require it have access to the system, providing training and guides on using the system, providing regular communication and prompts to partners to book and hold the meeting, and providing regular reporting to Northamptonshire Children's Trust on the progress of meetings held

Better, brighter futures	BBF22	Number of children without a school place	400 300 200 100 Apri Nay Jun Jul Rus Ger Oct Not Dec Jan Les Nat -Actual 2022-23 -Actual 2023-24	No	274	316	100	140	274	291	316	↑ R	Lower is better	Target under review	n/a	The number of children without a school place rose by 25 to 316 children at the end of August 2023, the highest volume reported in the four months for which figures are available. During the last four months, the proportion of the total children without a school place who are in School Admissions processes has risen from 33.8% in May to 57.0% in August. During the same period of time, the number of children without a school place who are in School Admissions processes has more than doubled. By comparison, the number of children without a school place in Special Educational Needs (SEN) Support/ Educational Health Care (EHC) Services has increased by a net 8 children and the number of children without places in Educational Inclusion & Partnership (EIP) Services has decreased by a net 3 children (Children's Performance Team commentary).
Better, brighter futures	BBF32	Current number of home educated children	900 880 860 840 820 800 780 760 740 720 Apr May June July August —Actual Trend	Not yet statutory but reported as part of "Elective Home Education/ Children missing in education" data return to DfE.	855	790	855	876	855	783	790	Û	No polarity	N/A - Tracking	n/a	790 children were electively home education at the end of August 2023. Over 800 children were home educated between March 2023-June 2023. This marks the second consecutive occasion in six months that volume of home educated children was below 800. A peak of 876 was registered in May 2023, the highest number of electively home educated children so far. This time last year there were 638 electively home educated children, so the cohort is 19% greater than it was at the end of August 2022. 35% of electively home educated children have been educated at home for more than two years (274) and a further 18% have been educated at home for 1-2 years (144). Out of the 790 home educated children in August, 25 children were also in the social care caseload, 24 children were in the Children in need (CIN) cohort, 1 child was in the Child Protection (CP) cohort, 2 children were in the Children missing in education (CME) cohort and 59 children were in the Education, Health & Care (EHC) cohort (Children's Performance Team commentary).
Better, brighter futures	BBF33	Number of children currently missing from education (Year 1-11)	200 150 100 50 Apr May June July August Actual Trend	Not yet statutory but reported as part of "Elective Home Education/ Children missing in education" data return to DfE.	103	133	142	123	103	165	133	↓ G	Lower is better	N/A - Tracking	n/a	At the end of August there were 133 children missing from education, an improvement from last month's performance of 165 children missing from education. In the last twelve months, the lowest number of CMEs was recorded in 2023. There were 7 children less in the cohort during the same month last year and 12 children less during the same month two years ago. August marks the third consecutive month that no children missing for +2 years were reported. 74.4% of children have been missing between 0-3 months, 15.8% of children have been missing between 3-6 months, 6.6% of children have been missing between 6-12 months, 3.8% of children have been missing between 1-2 years. There are now 51.1% fewer children missing from education than there were at the beginning of the academic year 2022-23. An average of 150 children were missing from education each month in the academic year 2022-23. Out of the 133 children missing from education in August, 4 children were also in the social care caseload, 4 children were also in the Children in need (CIN) cohort, 1 child was in the Child Protection (CP) cohort and 1 child was in Electively Home Education (EHE) cohort (Children's Performance Team commentary).

The team feel that updated training Is needed to all settings to improve the standard of annual reviews being returned to the team. Clear expectations and a consistent approach will be shared – this should make the amendments completed by the Education Health Care (EHC) team much more streamlined. The weekly data dashboard illustrates the returned annual reviews and we can see the types of settings where annual reviews are not being completed – again with the new team organisation, we will be able to contact settings and challenge this. The caseworkers have been allocated a group of settings and have issued a spreadsheet of the AR's due date for 2023-24 academic year and highlighted if previous AR's are out of time. The annual review team manager has developed a system for monitoring these moving forward. The annual review team leader will complete the weekly data dashboard and capture any issues arising – these will be discussed at the weekly leadership team meeting. This system will enable the team to give a % for each setting of the return AR data which again will enable to team to challenge and ensure that AR's are

The figure reported is the cumulative average turnaround time for those properties let in the month. This will help remove the impact a long term major void has when been empty for a long time and provide a more accurate reflection of void turnaround for standard properties. In August 23 there were 34 standard void properties let. The total number of void days for these 34 properties was 1881 days which provides a monthly average turnaround for August of 55.3 days. This has brought the cumulative average turnaround time down to 58.8 days which is within the target tolerance.
I SIP3/D I	erage time taken to re-let IC major void properties	560 60 A A A A A A A A A A A A A A A A A A Ctual 2023/24	No	n/a	217 days	243 days	301 days	243 days	↓ G	Lower is better	No target - tracking indicator only	N/A	In August 2023 there were 13 major void properties let. These 13 properties had a total number of void days of 3094. The number of void days for these properties meant there was an decrease in the overall cumulative average void days to 238 days. Using turnaround days for major voids at the present time is not the best indicator as there is no set approach to how major voids are resourced has been agreed. Number of major voids may be a more appropriate indicator to monitor.

A snapshot at the end of August shows there was a total of 1,223 repair jobs across Kettering and Corby that are awaiting completion. This is a reduction of 43 jobs awaiting completion compared with the snapshot at the end of July 23. The team continue to monitor closely whether the responsive repairs team are staffed, to be able to manage the level of new jobs received each month.
Safe and STP40 aw	Number of repair jobs vaiting completion which are outside of target timescale	560 AAAA 60 ROLINGY JULY JULY GER OCK NOW DEC JOUT FEB MONT A-Actual 2023/24	No	n/a	762	n/a	844	671	Ţ	N/A - Tracking	N/A - monitoring levels of demand	N/A	This is also a new measure to help monitor the current repairs jobs that are outside of target times. Again the lag between shifting backlog work off of the regular responsive repairs teams and onto the newly created backlog team is seen as the main reason why there are already a number of jobs post 1st March 2023 that are out of target time. The team will monitor closely from now on whether the responsive repairs team are staffed to be able to manage the level of new jobs received each month or not. The number of jobs outstanding which are out of timescale reduced from 844 at the end of July to 671 at the end of August, this is a reduction of 173 jobs.
