

## North Northamptonshire Council Performance Report - October 2023

### Key to Performance Status Colours

Progress Status Key:
Green - On target or over-performing against target
Amber - Under-performing against target but within 5% corporate tolerance (or other agreed tolerance as specified)
Red - Under-performing against target by more than 5% (or other agreed tolerance as specified)
Dark Grey - Data missing
Grey - Target under review
Turquoise - Tracking Indicator only
Children's Trust Progress Status Key:
Green - At target or better
Amber - Below target - within tolerance
Red - Below target - outside tolerance
Grey - No RAG

Direction of Travel Key	
An acceptable range = within 5% of the last period's performance	
↑G	Performance has improved from the last period – Higher is better
↓G	Performance has improved from the last period – Lower is better
↑	Performance has deteriorated but is still on or above target or within an acceptable range of 5% of the last period – Lower is better
→	Performance has stayed the same since the last period
↓	Performance has deteriorated but is still on or above target or within an acceptable range of 5% of the last period – Higher is better
↑R	Performance has deteriorated from the last period – Lower is better
↓R	Performance has deteriorated from the last period – Higher is better
↑	Actual increased - neither higher or lower is better
⇌	Actual has stayed the same since the last period - neither higher or lower is better
↓	Actual decreased - neither higher or lower is better

Children's Trust Direction of Travel Key	
↑G	Performance improved since last month
→	Performance the same as last month
↓A	Performance declined since last month

### Performance Terminology key

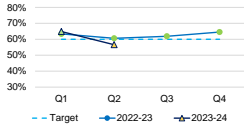

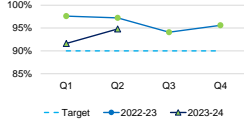

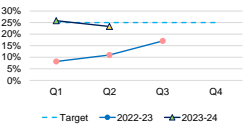

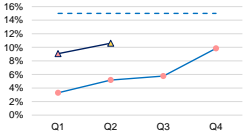

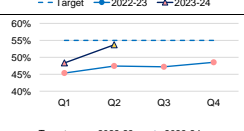

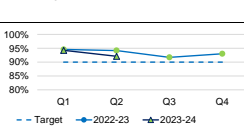

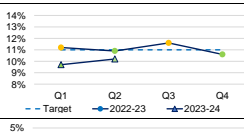

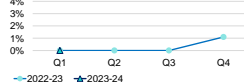

TBC	To be confirmed
TBD	To be determined
n/a	Not applicable
Actual	The actual data (number/percentage) achieved during the reporting period
Benchmark	A comparator used to compare the Council's performance against. The 2020/21 average for Unitary Councils in England has been used where available unless otherwise stated.
Numerator	Number as part of the percentage calculation which shows how many of the parts indicated by the denominator are taken. See example below.
Denominator	The total number which the numerator is divided by in a percentage. See example below.
EXAMPLE Performance Indicator	% Calls answered
Numerator	Number of calls answered
Denominator	Total number of calls received

Place & Economy															
Key Commitment	Ref No.	Description of Performance Indicator	Infographic / Chart	Statutory Reporting Required? (Yes / No)	Benchmark	Quarter 1 23-24	Quarter 2 23-24	Year to Date 2023-24	September 2023/24	October 2023/24	Direction of Travel (since previous period)	Polarity	Target	Tolerance	Comments
<b>Growth &amp; Regeneration</b>															
Safe and thriving places	STP15	Percentage of major planning applications determined within 13 weeks (or within agreed extension of time)		Yes (we have set the target higher than statutory level)	94% (Mean Average CIPFA Near Neighbours - LG Inform Q4 2022/23)	92.31%	82.35%	85.71%	100%	83.33%	↓R	Higher is better	90%	85% - 90%	Performance this month has dropped. This is as a result of determining a relatively large number of major applications this month and that comparatively low overall case numbers for major applications mean that percentage performance remains volatile. Year-to-date performance remains within tolerance.
Safe and thriving places	STP16	Percentage of minor planning applications determined within 8 weeks (or within agreed extension of time)		Yes (we have set the target higher than statutory level)	87% (Mean Average CIPFA Near Neighbours - LG Inform Q4 2022/23)	73.91%	84.54%	79.82%	85.19%	82.05%	↓	Higher is better	85%	80% - 85%	Performance this month has dropped slightly but is within tolerance, although a significant number of applications have been determined this month. Planning officer capacity remains challenging, but a recruitment campaign is in progress to increase the number of permanent planning staff which it is hoped will assist in improvements with longer-term performance.
Safe and thriving places	STP17	Percentage of other (including householder applications) planning applications determined within 8 weeks (or within agreed extension of time)		Yes (we have set the target higher than statutory level)	88% (Mean Average CIPFA Near Neighbours - LG Inform Q4 2022/23)	83.81%	85.83%	83.36%	83.51%	75.27%	↓R	Higher is better	88%	83% - 88%	Performance has dropped this month but remains within tolerance. Planning officer capacity remains challenging, but a recruitment campaign is in progress to increase the number of permanent planning staff which it is hoped will assist in improving longer-term performance.

Highways & Waste															
Safe and thriving places	STP29	<b>Number of Defects Outstanding on the network (at end of period), split by category</b>		No - Contractual	n/a	4069	1982	1788	1982	1788	↓G	Lower is better	No target - tracking indicator only	N/A	The total number of defects reduced in October which has allowed Kier to implement P4 repairs earlier, resulting in a reduction from the previous month of outstanding P4 from 1889 to 1626. There was an increase in P2 from 2 to 15 and an increase in P3 from 91 to 147. This reflects the defect mix rather than contractor performance as STP31 shows that the contractor is exceeding target performance for repair timescales.
		P1 (Target response time within 24 hours)		0	0	0	0	0	→						
		P2 (Target response time within 7 days)		0	2	15	2	15	↑R						
		P3 (Target response time within 28 days)		608	91	147	91	147	↑R						
		P4 (Target response time within 26 weeks)		3461	1889	1626	1889	1626	↓G						
Safe and thriving places	STP30	<b>Number of Defects Repaired in the network in period, split by category</b>		No - Contractual	n/a	4953	3957	10258	1010	1348	↑G	Higher is better	No target - tracking indicator only	N/A	The total number of carriageway defects repaired in October increased as Kier have continued to speed up P4 repairs ahead of the likely increase in defects as we enter the winter period.
		P1 (Target response time within 24 hours)		6	0	6	0	0	→						
		P2 (Target response time within 7 days)		217	202	442	21	23	↑G						
		P3 (Target response time within 28 days)		2863	1410	4544	362	271	↓R						
		P4 (Target response time within 26 weeks)		1867	2345	5266	627	1054	↑G						
Safe and thriving places	STP31	<b>Percentage of defects responded to within the timeframes specified, split by category</b>		No - Contractual	n/a	86.81% (3737 out of 4305)	97.28% (3178 out of 3267)	92.10% (8193 out of 8895)	98.27% (797 out of 811)	98.31% (1278 out of 1323)	↑G	Higher is better	P1 and P2 97.5% P3 and P4 90%	No Tolerance	All targets have been significantly exceeded this month which has brought the cumulative P3 percentage above the target resulting in all targets for the year currently being met.
		P1 (Target response time within 24 hours)		100% (6 out of 6)	100% (0 out of 0)	100% (6 out of 6)	100% (0 out of 0)	100% (0 out of 0)	→						
		P2 (Target response time within 7 days)		99.09% (217 out of 219)	100% (209 out of 209)	99.55% (449 out of 451)	100% (24 out of 24)	100% (23 out of 23)	→						
		P3 (Target response time within 28 days)		86.72% (2293 out of 2644)	95.53% (1132 out of 1185)	90.05% (3758 out of 4173)	98.3% (260 out of 270)	96.8% (333 out of 344)	↑G						
		P4 (Target response time within 26 weeks)		85.03% (1221 out of 1436)	98.08% (1837 out of 1873)	93.31% (3980 out of 4265)	99.23% (513 out of 517)	97.84% (922 out of 956)	↓						

Customer & Governance

**Communities & Public Health**

Key Commitment	Ref No.	Description of Performance Indicator	Infographic / Chart	Statutory Reporting Required? (Yes / No)	Benchmark	Year to Date 2023-24	Quarter 1 23-24	Quarter 2 23-24	Direction of Travel (since previous period)	Polarity	Target	Tolerance	Comments
Public Health													
Active, fulfilled lives	AFL22	Smoking quit rate at 4 weeks		2,225 per 100,000 (Mean average CIPFA near neighbours 2019/20)	n/a	60.2% (Apr-Sep 2023) 470 out of 781	64.8% (Apr-Jun 2023) 221 out of 341	56.6% (Jul-Sep 2023) 249 out of 440	↓R	Higher is better	60%	5%	Lag in data in the preceding 2 months  The service is disappointed not to have met its target for Quarter 2, however we are thrilled to see we are on track to meet our annual quit rate target. We will endeavour to go beyond this objective and look forward to helping far more North Northamptonshire residents quit smoking in 23/24.
Better, Brighter Futures	BBF02	% of infants due a new birth visit that received a new birth visit within 14 days of birth		75.7% (Mean average CIPFA near neighbours 2020/21)	88.2% (England 2020/21 - LG Inform)	93.2% (Apr-Sep 2023) 1555 out of 1668	91.6% (Apr-Jun 2023) 754 out of 823	94.8% (Jul-Sep 2023) 801 out of 845	↑G	Higher is better	90%	5%	This indicator represents North Northamptonshire. July - September 2023 data. October - November data will be available in January 2024 report. Benchmark updated: England 2020/21.  The Health Visiting Service is working hard to achieve their targets. Activity continues to improve. This month they have achieved a rate of 94.8% of the National Best Value mandated target, higher than last quarter 91.6% they are above the English average of 81.2%. The service is seeing the most of the remaining children by 28 days. The service now has a skill mix of staff in the 0-19 team to enable the service to increase their capacity and ability to see every child for their mandated health checks
Active, fulfilled lives	AFL20	% of in-year eligible population offered an NHS Health Check		4.9% (Mean average CIPFA near neighbours Q4 2022/23)	27.3% (England - Q1 2023/24 - PHOF)	50.6% (Apr-Sep 2023) 11869 out of 23465	27.3% (Apr-Jun 2023) 6400 out of 23465	23.3% (Jul-Sep 2023) 5469 out of 23465	↓R	Higher is better	25% (100% annual target)	5%	Further detail on ALF20 and ALF21:-  The main issues providers have encountered in Q2 are around capacity and vaccination pressures. Recruitment in particular has been a huge issue, with healthcare assistant and nursing teams being understaffed across North Northamptonshire, and NHS Health Checks being de-prioritised as a result. Some practices have cited issues around the recruitment processes, with Job Centres sending a lot of people through to apply for Healthcare Assistant roles where advertised, and applicants not showing up or being suitable, causing significant delays to filling posts. GP practices have also needed to direct capacity to Covid-19 vaccination, a pressure that will continue and grow as we move into winter and flu vaccination picks up.
Active, fulfilled lives	AFL21	% of in-year eligible population who received an NHS Health Check		2.2% (Mean average CIPFA near neighbours Q4 2022/23)	10% (England - Q1 2023/24 - PHOF)	20.3% (Apr-Sep 2023) 4770 out of 23465	9.7% (Apr-Jun 2023) 2272 out of 23465	10.6% (Jul-Sep 2023) 2498 out of 23465	↑G	Higher is better	15% (60% annual target)	5%	North Northants now sits around the England average, which considering the NHS Health Check programme in North Northants has been delivered entirely by primary care (and further still considering the pressures primary care is under), there is a good platform to build on as we continuously work on service improvement, but also look at expanding the programme through community-based options. Primary care has been under a lot of pressure since Covid-19 and this time of year also brings winter pressures as we move through the colder months. For this reason, NHS Health Checks cannot always be a priority.  When comparing with national averages, it is worth keeping in mind that local authorities all have different models for delivering NHS Health Checks, so naturally local authorities with non-primary care providers (e.g., in-house teams, specialist commissioned services, leisure providers, etc.) may not have faced the same challenges that North Northants has in their attempts to both restart the NHS Health Check programme and keep it running consistently.
Better, Brighter Futures	BBF01	Breastfeeding rate at 6-8 weeks		49% (Mean average CIPFA near neighbours 2021/22)	49.3% (England - 2021/22 - PHOF)	51.0% (Apr-Sep 2023) 792 out of 1553	48.3% (Apr-Jun 2023) 379 out of 784	53.7% (Jul-Sep 2023) 413 out of 769	↑G	Higher is better	55%	52.25% - 55%	This indicator represents North Northamptonshire. July - September 2023 data. October - November data will be available in January 2024 report. Benchmark updated: England 2020/21. This indicator represents North Northamptonshire.  This month has seen an increase in the breastfeeding rates from 48.3% to 53.7%. The breastfeeding peer support service continues to support this work across the county. In September 2023 Public Health and partners established and implemented an emergency Infant feeding pathway to support parents in poverty unable to afford Infant formula & provide essential nutrition to their babies under one. Local insight is indicating that poverty is contributing to an increase in breastfeeding.  North Northamptonshire is exceeding both the national performance and our CIPFA statistical neighbours.
Better, Brighter Futures	BBF03	% of children who received a 6-8 week view by the time they were 8 weeks			81.2% (England - Q2 2021/22)	93.2% (Apr-Sep 2023) 1556 out of 1670	94.2% (Apr-Jun 2023) 786 out of 834	92.1% (Jul-Sep 2023) 770 out of 836	↓	Higher is better	90%	5%	This indicator represents North Northamptonshire. July - September 2023 data. October - November data will be available in January 2024 report. Benchmark updated: England 2020/21.  The Health Visiting Service continues to work through this challenging period, there was a slight drop in activity in this period, however the service still remains above the England average achieving 92.1% the 6-8 week mandated target. The service has now recruited a skill mix of staff in the 0-19 service to enable the team to increase their capacity and ability to see every child for their mandated health checks
Better, Brighter Futures	BBF04	% mothers known to be smokers at the time of delivery		10.8% (Mean average CIPFA near neighbours 2021/22)	9.1% (England 2021/22 - PHOF)	10.0% (Q1-2 2023) 376 out of 3771	9.7% (Q1 2023) 175 out of 1803	10.2% (Q2 2023) 201 out of 1968	↑	Lower is better	11%	11% - 12%	This indicator represents North Northamptonshire. Tobacco dependency maternity advisors have been identified through the recruitment process, we are also looking to work with the Local Maternity & Neonatal System and Midwifery to review the local model of Long Term Plan tobacco dependency service in maternity based on the evidenced based practice in Manchester which has achieved significant reductions in their smoking at time of delivery rates, supported by the stop smoking service
Better, Brighter Futures	AFL23	% substance misuse clients waiting more than 3 weeks for their first intervention			9.3% (England Q2 2022/23 - NDTMS)	0% (Q1 2023)	0% (Q1 2023)	Data Unavailable	N/A	Lower is better	No target - tracking indicator only	National target will be available in April 2024	Quarter 2 Data is not yet available.  North Northamptonshire's Substance Misuse Programme continues to meet all demands for waiting times for patients starting treatment.

Key Commitment	Ref No.	Description of Performance Indicator	Infographic / Chart	Statutory Reporting Required? (Yes / No)	Benchmark	October 2022/23	Quarter 1 23-24	Quarter 2 23-24	Year to Date 2023/24	September 2023/24	October 2023/24	Direction of Travel (since previous period)	Polarity	Target	Tolerance	Comments
<b>Revenues &amp; Benefits</b>																
Modern Public Services	MPS05	% of council tax collected in the year debit raised		Yes, reported on a quarterly basis but no target set by government	95.97% (Mean Average CIPFA Near Neighbours - LG Inform 2022/23)	66.75% (YTD) 101.14% achieved of the monthly target (66.00%)	28.30% (YTD) 104.96% achieved of the target (28.00%)	55.36% (YTD) 101.75% achieved of the target (56.00%)	67.75% (YTD) 102.65% achieved of the monthly target (66.00%)	56.98% (YTD) 101.75% achieved of the monthly target (56.00%)	66.25% (YTD) 100.38% achieved of the monthly target (66.00%)	↓	Higher is better	98% (Annual target)	No tolerance	Performance is above target and is above the same point in time last year. We will continue to monitor closely.
						£26,786,291.47 (collected in Oct)	£71,233,944.18 (collected YTD)	£57,038,947.66 (collected in Q2)	£149,936,141.07 (collected YTD)	£22,264,988.31 (collected in Sept)	£22,594,901.75 (collected in Oct)					
Modern Public Services	MPS04	% of business rates collected in the year debit raised		Yes, reported on a quarterly basis but no target set by government	97.13% (Mean Average CIPFA Near Neighbours - LG Inform 2022/23)	66.59% (YTD) 100.89% achieved of the monthly target (66.00%)	28.92% (YTD) 103.22% achieved of the target (28.00%)	55.72% (YTD) 99.50% achieved of the target (56.00%)	64.02% (YTD) 97% achieved of the monthly target (66.00%)	55.72% (YTD) 99.50% achieved of the monthly target (56.00%)	64.02% (YTD) 97% achieved of the monthly target (66.00%)	↓	Higher is better	98% (Annual target)	No tolerance	Performance has dropped slightly below target, this was anticipated due to the the cost of living issues and current economic climate. We will monitor this closely.
						£12,866,005.37 (collected in Oct)	£47,156,437.48 (collected YTD)	£42,709,697.20 (collected in Q2)	£103,103,264.63 (collected YTD)	£13,318,470.69 (collected in Sept)	£13,663,714 (collected in Oct)					

Children's Services															
Key Commitment	Ref No.	Description of Performance Indicator	Infographic / Chart	Statutory Reporting Required? (Yes / No)	Benchmark	Quarter 1 2023-24	Quarter 2 2023-24	Year to Date 2023-24	September 2023/24	October 2023/24	Direction of Travel (since previous period)	Polarity	Target	Tolerance	Comments
Children's Trust (This data is for the whole of Northamptonshire)															
Better, brighter futures	BBF05 (KPI 2)	% of referrals with a previous referral within 12 months		Yes (also contractual) - target is contractual but not statutory	21.9% Mean for Northamptonshire Children's Services LAIT near neighbours 2021/22	25.4% (2,585)	26.2% (1,986)	26.2% (5,453)	25.1% (642)	28.7% (882)	↓ A	Lower is better	29%	25% - 40%	Re-referrals have increased this month but is still better than target. It remains an area of ongoing focus with audit and review for learning. The front door review, Ofsted focused visit and subsequent action plan being developed with the partnership in October will reduce re-referrals going forward. The dedicated education roles in the Multi Agency Safeguarding Hub (MASH) are working positively with schools to ensure appropriate referrals and compliments from schools about their roles are increasing. Work with all partners continues to ensure appropriate and robust application of thresholds. Steps have been taken to strengthen the Early Help partnerships with Partnership Support Team (Early Help MASH) being placed in the MASH pods and a lesser step down process. COVID: and cost of living crisis has an impact on volume and quality of re-referrals (Trust commentary, October 2023).
Better, brighter futures	BBF06 (KPI 3)	% of single assessments authorised within 45 working days		Yes (also contractual) - target is contractual but not statutory	88% We are in the process of identifying more up to date benchmark data for this PI.	92.9% (2,792)	94.3% (2,695)	93.9% (6,317)	96.3% (630)	95.7% (830)	↓ A	Higher is better	85%	85% - 95%	Assessment timescales remain consistently above target and national average, but decreasing slightly to 95.7% this month. All managers monitor this very closely via daily reports. A narrative is provided for cases that go beyond 45 days and this remains a very small minority. Whilst staffing has presented challenges due to vacancies and staff performance issues in Duty and Assessment Team (DAAT), there is now a positive move towards more appropriate staffing levels being achieved and sustained. In addition to timeliness, we work on increasing the quality of assessments and more effective use of Signs of Safety (SoS) in our interventions (Trust commentary, October 2023).
Better, brighter futures	BBF07 (KPI 6)	% Children in care with three or more placements in the previous 12 months		Yes (also contractual) - target is contractual but not statutory	10% Mean for Northamptonshire Children's Services LAIT near neighbours 2021/22	11.1% (1,191)	12.4% (1,165)	12.0% (1,198)	12.4% (1,165)	12.0% (1,198)	↑ G	Lower is better	10%	5% - 15%	Performance has improved to 12.0% this month after an increase in children in care since last month. Consideration of various options to improve sufficiency is continuing, including exploration of capital investment, additional in house resources, as well as improved engagement with the market. Planning permission granted for two new emergency homes and valuing care project has commenced. Through improved edge of care arrangements, the close oversight on admissions to care, and the developments within placement sufficiency, we are confident we can reduce the need for child to move home as frequently. Positively, Childrens Home Capital Programme application with the Department for Education (DfE) has been successful, and that should also support progress in this area. COVID: Placement sufficiency remains a challenge, sustained performance in this work should also have a positive impact on KPI 7 (Trust commentary, October 2023).
Better, brighter futures	BBF08 (KPI 9)	% of young people now aged 17 - 21 and in employment, education or training who were looked after when aged 16		Yes (also contractual) - target is contractual but not statutory	56.95% Mean for Northamptonshire Children's Services LAIT near Neighbours 2021/22	62.7% (684)	65.3% (678)	65.4% (677)	65.3% (678)	65.4% (677)	↑ G	Higher is better	55%	50% - 60%	This month has seen performance increase to 65.4%, comparing favourably with 58% across England. Focus in this area continues to be driven through arrangements with local colleges, the virtual school and the senior personal advisor (Education and Employment) with further review of contracted arrangements (Prospects) to be undertaken to ensure we have the best approach/ support for young people. Work with councils to ensure Education, Employment and Training (EET) opportunities and support is in place for our care leavers. West Northamptonshire have signed up to Care leavers covenant. COVID: has had a significant impact on the mental health and wellbeing of care leavers, targeted work support care leavers to access EET (Trust commentary, October 2023).
Better, brighter futures	BBF09 (KPI 10)	% of young people now aged 17 - 21 and living in suitable accommodation who were looked after when aged 16		Yes (also contractual) - target is contractual but not statutory	89% (All English Authorities 2020/21 - LG Inform)	95.5% (684)	96.0% (678)	96.6% (677)	96.0% (678)	96.6% (677)	↑ G	Higher is better	90%	85% - 95%	Performance for this month increased to 96.6%, still above the target of 90%. We know that we have some young people in unsuitable accommodation, including a number of young people sentenced to custody, and some who have no accommodation at all. We work hard to address this, tenaciously seeking to engage with young people who may see our attempts at support as interference. The care leavers housing protocol is in place and work is being progressed under the governance of a strategic group; this includes a review of the housing panels and engagement with the housing associations. Helpful discussions with colleagues in the Councils is placing the housing sufficiency needs of care leavers as central to their housing strategies. The Accommodation Transitions Panel is now in operation and ensures all young people have a comprehensive, accommodation-focused, shared, and timely transition plan (Trust commentary, October 2023).
Better, brighter futures	BBF27 (KPI 5)	% of initial child protection conferences held within 15 days of a strategy discussion being initiated		Yes (also contractual) - target is contractual but not statutory	84.3% Mean for Northamptonshire Children's Services LAIT near neighbours 2021/22	36.4% (343)	13.2% (288)	25.3% (724)	17.1% (70)	21.5% (93)	↑ G	Higher is better	81%	66% - 86%	Performance improved slightly again this month, but is still well below expectations. 80% Initial Child Protection Conferences (ICPC) conversion to Child Protection (CP) Plans is positive. Performance in October is negatively impacted by business support vacancies in SQAS (Safeguarding & Quality Assurance Service) (34 children's conferences out of time due to capacity) - recruitment is in progress. CP Chair average caseload remains above 100 (well above recommended levels). Additional temporary CP Chair resource has been recruited, and will have positive impact (October and further in November). There was another month of high numbers of ICPC's in August (130) all requiring 1st reviews in November. As all ICPC's have to fit in already busy duties, this will continue to impact on capacity and performance. Average no. days from strat. to ICPC in October = 27. There are now lower numbers of conferences late due to delayed convening requests from Duty and Assessment Team (DAAT) and Safeguarding, which is positive. All ICPC's are tracked and referring managers are challenged to identify causes of delay and ensure individual, team or whole-service learning is addressed. DAAT managers support SW's with additional training on process, recording and requesting strategy discussions and convening conferences. A refreshed duty CP Chair flowchart is in place to assist referring managers with threshold decision-making and this has been shared with all teams (Trust commentary, October 2023).
Better, brighter futures	BBF28	Number of children with a Child Protection Plan		Yes	565 Mean for Northamptonshire Children's Services LAIT near neighbours 2021/22	714	755	716	755	716	↓	No polarity	TBD		716 children were subject to a Child Protection (CP) Plan in October 2023. The cohort has decreased by 39 children since last month. Yet, there were 47 children less in the cohort twelve months ago. Prior to June 2023, there were less than 700 children were in the cohort. June-October 2023 have produced the highest number of Child Protection Plans in the last three financial years. An average of 732 children had a Child Protection Plan in the last five months. By comparison, an average of 643 children had a Child Protection Plan during the same period of last year. There are now 44 children more in the cohort than in October 2022, and 38 children more than in October 2021. An average of 670 children were subject to a Child Protection Plan in the last twelve months. This marks an increase from last year when an average of 620 children had a Child Protection Plan. 85.3% of children on Child Protection Plan had up to date CP visits in October 2023, a slight decline from last month's performance of 88.5%. In the last twelve months, an average of 86.6% of children on CP plans has up-to-date visits. This is slightly behind the average during the same period of last year (88.6%) and two years ago (87.7%) (Intelligent Client Function commentary).
Better, brighter futures	BBF29	Number of children in care		Yes	1,050 Mean for Northamptonshire Children's Services LAIT near neighbours 2021/22	1,191	1,179	1,198	1,165	1,198	↑	No polarity	TBD		1,198 children were in care in October 2023, 33 children more than last month. Following a short period of decrease between March and September 2023, the population of children in care grew again this month. October 2023 marks the highest record in five months. Even so, there are now 23 children less in the cohort than a year ago. Prior to July 2022, the cohort had never exceeded 1,200. October 2023 marks the fifth consecutive month where less than 1,200 children have been recorded in this cohort. So far in 2023-24, an average of 1,191 children have been reported to be in care. September 2023 accounts for the lowest volume of children in care of the last twelve months. An average of 1,209 children have been reported to be in care in the last 12 months. This is slightly higher than the average during the same period of last year (1,192) and two years ago (1,153). At the end of October 2023, 120 children in care were also identified in the EHC (Education & Health Care) cohort. The number of children in care who were also in the EHC cohort has decreased by 2 since June 2023 (Intelligent Client Function commentary).

Better, brighter futures	BBF18b	% of EHC (education health care) plans completed in month issued within 20 weeks (including exceptions)		Yes (part of SEN 2 return)	37.8% Mean for NNC Children's Services LAIT near neighbours 2021/22	66.7%	74.2%	73.6%	78.2%	66.7%	↓R	Higher is better	Target under review	n/a	The summer has allowed the team to focus on writing and finalising plans. Again, this is the impact of the new assessment team which has been piloted as part of the new Educational Health Care (EHC) Team reorganisation. Whilst the team have written and finalised plans, many are finalised on type due to late lead professional advices not allowing the EHC Team time to consult. RSA decisions are being made by week 6 (no decisions have been made after 6 weeks), advice is requested but often not returned until Week 16-17 of the process leaving the EHC team a few days to write the plan and 15 days for the draft to be commented on by the parent. To meet the statutory 20 week timescales, there is no time to send consults for pupils and staff have to amend plans naming a school once they are finalised. The EHC Team are working collaboratively with the Educational Psychology (EP) service and health to try to improve this (Service commentary, September 2023).

Better, brighter futures	BBF22	Number of children missing education (previously named 'Number of children without a school place')		No		274	313	226	313	226	↓G	Lower is better	Target under review	n/a	A total of 226 children were missing education at the end of October 2023, 28% children less than last month. 47.8% of children missing education are in SEN Support/ EHC Services, 47.8% are in School Admissions and 19.5% are in EIP Services. So far, August 2023 accounts for the highest proportion of children missing education. While the lowest proportion of children missing education was recorded in May 2023. An average of 270 children were missing education in the last five months (Children's Performance Team commentary, October 2023).
Better, brighter futures	BBF32	Current number of home educated children		Not yet statutory but reported as part of "Elective Home Education/ Children missing in education" data return to DfE.		855	837	854	837	854	↑	No polarity	N/A - Tracking	n/a	854 children were electively home educated in October 2023, 17 children more than last month. There were 664 electively home educated children in September 2023, so the cohort has increased by 22% in twelve months. 33.5% of electively home educated children have been educated at home for more than two years (286 children), 18.9% for 1-2 years (161 children), 20.5% for 6-12 months (175 children), 10.0% for 3-6 months (85 children) and 17.2% for 0-3 months (147 children). An average of 806 children were electively home educated in the last twelve months. By comparison, an average of 664 children were electively home educated during the same period of last year (Children's Performance Team commentary, October 2023).
Better, brighter futures	BBF33	Number of children who are absent from education for prolonged periods (Previously named 'Number of children currently missing from education (Year 1-11)')		Not yet statutory but reported as part of "Elective Home Education/ Children missing in education" data return to DfE.		103	225	114	225	114	↓G	Lower is better	N/A - Tracking	n/a	114 children were absent from education for prolonged periods in October 2023. Following the peak of 225 children missing from education for prolonged periods in September 2023, the population of children absent has decreased by 111 children this month. 67.5% of children have been absent between 0-3 months (77), 24.6% of children have been absent between 3-6 months (28), 2.6% of children have been absent between 6-12 months (3), 5.3% of children have been absent between 1-2 years (6). The number of children absent from education between 0-3 months has significantly improved compared with last month. There are now 107 less children missing between 0-3 months. So far in Autumn Term 2023, an average of 170 were absent from education for prolonged periods. By comparison, an average of 229 children were absent from education during the same period of the academic year 2022-23. An average of 142 children were absent from education for prolonged periods in the last twelve months (Children's Performance Team commentary, October 2023).
Better, brighter futures	BBF36	% Education Health Care Plan Annual Reviews completed within 4 weeks of meeting		Statutory Duty but not reported		66.7%	58.8%	64.3%	48.1%	N/A reported one month in arrears	↑G	Higher is better	N/A - Tracking	n/a	A new Annual Review (AR) template has been designed and training organised for all settings (Early Years (EY), primary, secondary, college, Out of Authority (OOA), independent, special) for the 26th September. The team feel that updated training is needed to all settings to improve the standard of annual reviews being returned to the team. Clear expectations and a consistent approach will be shared – this should make the amendments completed by the EHC team much more streamlined. The weekly data dashboard illustrates the returned annual reviews and we can see the types of settings where annual reviews are not being completed – again with the new team organisation, we will be able to contact settings and challenge this. The caseworkers have been allocated a group of settings and have issued a spreadsheet of the AR's due date for 2023-24 academic year and highlighted if previous AR's are out of time. The annual review team manager has developed a system for monitoring these moving forward. The annual review team leader will complete the weekly data dashboard and capture any issues arising – these will be discussed at the weekly leadership team meeting. This system will enable the team to give a % for each setting of the return AR data which again will enable to team to challenge and ensure that AR's are taking place consistently in all settings (Service commentary). The 0% result for August is due to the fact that Education Health Care Plan reviews are not carried out during August when schools are closed (Service commentary, September 2023).

Active, fulfilled lives	AFL12	Number of rough sleepers - single night snapshot		Yes (DLUHC monthly rough sleeping survey, and target agreed with our RSI adviser from DLUHC)	7 (Mean Average CIPFA Near Neighbours - LG Inform)	16	13	19	12	13	19	↑R	Lower is better	9	9 to 12	During the month of October, there has been an increase in numbers of Rough Sleepers (19 single night snapshot), 5 of which were new to the rough sleeping team, which is a high proportion. Mostly rough sleeping due to evictions, from private rentals and support provisions. The team are focusing on prevention work as much as possible, linking in with our cohort that have been placed and liaising with the providers if there are concerns around future. Our long-term rough sleepers, (which is measured if seen 3 or more months of last 12 months) has reduced to 6 for the month this is due to two being placed within the Rough Sleeping Accommodation Programme (RSAP) units. The RSAP project is aimed at our Multiple exclusion homelessness cohort working with the Housing First principles. Our monthly rough sleeping numbers have increased to 35 which is average for this time of year.
Active, fulfilled lives	AFL13	Number of households whose homelessness was prevented		Yes (DLUHC - quarterly H-CLIC returns, no target set)	101 (Mean Average CIPFA Near Neighbours - LG Inform) Demand in some areas must be much higher.	75	63	169	17	22	31	↑G	Higher is better	252 (21 per month)	18-21	The number of households whose homelessness was prevented has increased from 22 to 31 from September to October. Performance continues to fluctuate between months due to a variety of factors. This reflects the difficulties the Housing Options Team are having trying to secure accommodation solutions, particularly in the private sector in order to prevent or relieve households homelessness locally. There is a recognised need for the team to move its focus further upstream to maximise homelessness prevention opportunities and action plan is being developed in this regard.
Active, fulfilled lives	AFL14	Number of households whose homelessness was relieved		Yes (DLUHC - quarterly H-CLIC returns, no target set)	75 (Mean Average CIPFA Near Neighbours - LG Inform) Demand in some areas must be much higher.	86	82	198	24	36	30	↓	Higher is better	300 (25 per month)	22-25	The number of households whose homelessness was relieved slightly decreased from September to October. Performance continues to fluctuate between months due to a variety of factors. This reflects the difficulties the Housing Options Team are having trying to secure accommodation solutions, particularly in the private sector in order to prevent or relieve households homelessness locally. There is a recognised need for the team to move its focus further upstream to maximise homelessness prevention opportunities and action plan is being developed in this regard.
Active, fulfilled lives	AFL15	Total number of homeless approaches		Yes (DLUHC - quarterly H-CLIC returns, no target set)	n/a	1468	1404	3370	449	430	498	↑	N/A	Tracking - monitoring levels of demand only	N/A	3,863 households approached the Council as homeless during 2021/22, which is an average of 320 approaches per month. 4,778 households approached the Council as homeless during 2022/23. This is an increase of just over 900, and an average of 400 approaches per month. Currently the Housing Options Team have a live caseload of 1039 cases. During Oct there was a substantial increase in the number of approaches from 430 to 488, likely to have been caused by the end of the school holidays.
Active, fulfilled lives	AFL17	Total number of households living in temporary accommodation		Yes (DLUHC - quarterly H-CLIC returns, no target set)	202 (Mean Average CIPFA Near Neighbours - LG Inform)	n/a	n/a	n/a	230	239	239	→	Lower is better	245	No tolerance	The number of new households entering temporary accommodation remains high, with the highest number of new placements recorded this month. The team is doing all it can to meet the demand, and increase supply options, as well as support housing options colleagues to ensure that households can be moved on from temporary accommodation as quickly as possible. Please note that this figure includes units through the Local Authority Housing Fund (LAHF) programme for homeless Afghan and Ukrainian families. As these placements will need to be retained on homelessness and temporary accommodation caseloads because of tenancy/letting issues, a future rise in the number of households living in temporary accommodation should be expected LAHF Round 1 and 2 will deliver 41 units altogether. *This figure is for statutory duty placements only and does not include the additional cohort of rough sleepers accommodated using discretionary powers*
Active, fulfilled lives	AFL18	Number of households with family commitments* living in bed and breakfast accommodation		Yes (DLUHC - quarterly H-CLIC returns, no target set)	11 (Mean Average CIPFA Near Neighbours - LG Inform)	n/a	n/a	n/a	2	1	4	↑	Lower is better	5	No tolerance	As at the end of October there were 4 households with family commitments living in B&B, with the longest stay being a pregnant woman for 12 nights. The team has identified a move on plan for all 4 households through its daily review of these cases. * Households with family commitments are a) a pregnant woman; (b) with whom a pregnant woman resides or might reasonably be expected to reside; or, (c) with whom dependent children reside or might reasonably be expected to reside.
Active, fulfilled lives	AFL24	Number of Temporary Accommodation placements out of NN area		Yes (DLUHC - quarterly H-CLIC returns, no target set)	TBD	n/a	n/a	n/a	1	1	0	↓G	Lower is better	3	No tolerance	As a result of the team's efforts, there are no households placed out of area as at the end of October 2023.
Safe and thriving places	STP38	Percentage of rent collected		No	n/a	96.37	97.28%	96.77%	97.34%	97.28%	96.77%	↓	Higher is better	97%	5%	This is a cumulative rent collected as a percentage of rent owed figure. For both Kettering and Corby areas the figures do not include direct debit runs on 30th and 1st (which accounts for an extra £104,535.77 in the Kettering area alone) and payments received from 28th and 29th. The October figure also does not include direct Universal Credit payments from 25th, 26th, 27th, 28th, 29th and 30th (which amounts to extra £44,625.15 in the Kettering area). Enforcement action still on 3 month wait from courts. Intensive work on rent collection will continue over the forthcoming winter months.

Safe and thriving places	STP12	Number of (council house) dwellings vacant and ready to let at month end		Yes (Annual LAHS return to DLUHC, no target set)	n/a	n/a	n/a	n/a	8	8	3	↓G	Lower is better	10	10 to 15	At the end of October there were 3 properties Ready to Let. The weekly void meetings are helping to ensure that this number is kept to a minimum.
Safe and thriving places	STP36	Number of voids - Kettering Area		No	n/a	n/a	n/a	n/a	64	69	63	↓G	Lower is better	No target - tracking indicator only	N/A	This indicator provides a snapshot at the month end of the number of live Housing Revenue Account (HRA) voids. At the end of October there was a slight decrease in the number of voids. The overall NNC snapshot was at 122 compared with 128 as at the end of September. Note: This is the number of HRA voids only and does not include non-HRA temp. acquisitions or Out of Management properties
		Number of voids - Corby Area		No	n/a	n/a	n/a	n/a	56	57	59	↑				
Safe and thriving places	STP37a	Average time taken to re-let NNC standard void properties		Yes (Annual LAHS return to DLUHC)	8 weeks (56 days) House Mark	60.9 days	57.8 days	55.1 days	58.8 days	57.8 days	55.1 days	↓G	Lower is better	56 days	56 to 60 days	From April 2023 onwards, void turnaround time is reported by standard and major properties for NNC. The figure reported is the cumulative average turnaround time for those properties let in the month. This will help remove the impact of a long-term major void when it has been empty for a long time and provide a more accurate reflection of void turnaround for standard properties.  In October 23, there were 42 standard void properties let. The total number of void days for these 42 properties was 1716 days, which provides a monthly average turnaround for October of 40.9 days. This has brought the cumulative average turnaround time down to 55.1 days, which is within the target tolerance.
Safe and thriving places	STP37b	Average time taken to re-let NNC major void properties		No	n/a	217 days	248 days	252 days	243 days	248 days	252 days	↑	Lower is better	No target - tracking indicator only	N/A	In October 2023 there were 12 major void properties let. These 12 properties had a total number of void days of 3223. The number of void days for these properties meant there was a slight increase in the overall cumulative average void days to 252 days. Using turnaround days for major voids at the present time is not the best indicator as there is no set approach to how major voids are resourced has been agreed. Number of major voids may be a more appropriate indicator to monitor.
Safe and thriving places	STP08	% of properties with a valid gas safety certificate		Yes (Regulator of Social Housing - TSM, no target set)	n/a	99.8%	99.8%	n/a	99.6%	99.8%	99.7%	↓	Higher is better	100%	99.5% and above is green, 99% and above is amber	As at the end of October, 21 out of total 7,900 properties did not have a valid gas certificate. Of the 21 properties outstanding, 15 are in the Kettering area, two of these properties have appointments booked and the remaining 13 properties are going through the legal process to gain access. In the Corby area, 6 properties were outstanding, 5 of these properties have court dates booked for 07/11/23, and one property has a court date booked for 24/11/23.

Safe and thriving places	STP04	Number of active households on Keyways (as at 1st month)		No	n/a	5263	5642	n/a	5527	5642	5650	↑	N/A - Tracking	N/A - monitoring levels of demand	N/A	This provides a snapshot of the number of applicants active on the Council's housing Register (Keyways).  Total housing applications active have increased (as at 1st November the figure is 5785) as there were some recent blitz work completed during October. New applications being received remains high.  Please note that as applications are made active, previously active applications have the status changed to pending, suspended, closed, and housed. This figure therefore is not how many applications are being assessed in total. Annual renewals are currently suspended due to staff resources. Once in place this will reduce the active total due to applicants non-contact and change of circumstances.
Safe and thriving places	STP05	Number of new Keyways applications received		No	n/a	1850	1793	4218	582	568	575	↑	N/A - Tracking	N/A - monitoring levels of demand	N/A	575 new applications last month which was a small increase on the previous month. Remains high figure of new applications each month.  Average for the year to date 602 (last year for same period was 498).
