THE WAY WE WORK NOW – what we want to change

- Two routes of access into ASC services
- Demand continues to increase and waits for reviews continues
- No formal triage filter for conversation 1
- Hand offs between services
- Not all services are trained to focus on a strength-based approach
- Limited population needs focused /place-based approach for providers, commissioning and contracting. Reliance on historic contractual approaches with limited market capacity in many areas.
- Carer and family support and recognition limited
- Limited Information, advice and sign posting at the main routes of access
- Multiple IT systems and duplication, repetitiveness and hand offs
- Making Safeguarding Personal (MSP) is not embedded in all services consistently
- Co-production is limited
