

## North Northamptonshire Council Trading Standards

# FOOD and FEED STANDARDS ENFORCEMENT SERVICE PLAN 2021/23

## INTRODUCTION

This Plan outlines how the Trading Standards Service carries out its statutory duties to enforce standards for food and animal feeding stuffs. This includes monitoring the composition, labelling, claims, and descriptions relating to foodstuffs for human consumption, materials and articles in contact with food, and feeding stuffs for livestock and pets.

This has been prepared in accordance with the Food Safety Act 1990 Framework Agreement <sup>1(April 2010)</sup> published by the Food Standards Agency (FSA). In this plan 'food' should be read as meaning food for human consumption and 'feed' means animal feeding stuffs.

As a result of available resources within the Trading Standards Service, a risk assessed basis (utilising the National Trading Standards Intelligence Operating Model) has been applied to its responsibilities as the Service is unable to meet all the demands placed upon it across its wide remit. This Service Plan does not meet the requirements set out in the Food and Feed Codes of Practice (England). Where indicated, the plan should be read in conjunction with the Trading Standards Service Plan 2021/22 [SP].

## 1. SERVICE AIMS AND PRIORITIES

- 1.1 The Service's aims and priorities are reviewed annually and may be found in the Trading Standards Service Plan. The main aim of the Service is to, as far as possible within allocated resources to ensure a safe and fair trading environment in North Northamptonshire. The key priority is to protect our communities, particularly those that are most vulnerable, from rogue trading.
- 1.2 Corporate objectives and plans  
As the Council was only formed on 1<sup>st</sup> April 2021, the Corporate Plan is still in the process of being developed and will be subject to approval by the Executive. Once the Corporate plan is approved, if required, Service Plans will be revised and aligned with the Corporate aims and objectives.

Food Standards work contributes to the Council's priorities by protecting people, by helping reputable businesses to meet their responsibilities, by tackling those who flout the law or act irresponsibly, by helping the market place to operate fairly and competitively, enabling consumers to make informed choices about the food they eat, and by health promotion activity.

## 2. BACKGROUND

- 2.1 Profile of the North Northamptonshire  
North Northamptonshire Council is a new Unitary Council which, from 1<sup>st</sup> April 2021, has taken over the provision of local public service provision from the aggregated Councils of

Kettering, Wellingborough, Corby & East Northamptonshire, and from the disaggregated Northamptonshire County Council.

The North Northamptonshire Council Trading Standards Service was created from half the disaggregated Northamptonshire County Council Trading Standards Service.

## 2.2 Organisational Structure

The food and feed enforcement responsibilities are managed within the Trading Standards Service of the Council's Regulatory Services Division; see structure chart at Annex 4.

The Service now has 11 staff (10.8 full time equivalent). Three enforcement staff (including one contractor) are currently competent and actively involved in food enforcement. One member of staff is competent and actively involved in feed enforcement.

## 2.3 Scope

Food and Feed Standards work is only part of the statutory responsibilities enforced by the Trading Standards Service (see list of legislation enforced Annex 3 and the SP). Work is combined with other activities for efficiency and effectiveness.

Statutory Public Analyst services are provided by Public Analyst Scientific Services Ltd.

## 2.4 Demands on the Food and Feed Service

The premises risk rating scheme utilised is the revised National Trading Standards Board agreed risk scheme.

The Service maintains a database of all businesses identified as affected by trading standards legislation.

<b>Food Standards Inspection Premises</b>	<b>As at April 2021 premises<sup>1</sup></b>
High Risk <sup>2</sup>	6
Upper Medium Risk	95
Lower Medium Risk	1904
Low. Risk	231
<b>Total premises subject to Food Standards Risk</b>	<b>2236</b>

	<b>As at April 2021 premises<sup>1</sup></b>
<b>Animal Feed Premises</b> <i>Livestock and arable farms and other businesses in the feed chain</i>	947
Registered Establishments <sup>3</sup>	381
Approvals	1
Livestock farms	656

## Notes

<sup>1</sup> Numbers will vary throughout the year as the system is updated.

<sup>2</sup> Risk assessment has been based on the version published by National Trading Standards Board 2013.

3. The numbers include livestock and arable farms, manufacturers, food businesses supplying surplus food for animal feed, and transporters.  
 Farms register with this Service if they request, such as when audited by a Food Assurance Scheme, and Farms are registered directly by the Service where they are identified as unregistered on inspection/complaint/enquiry.

## 2.5 Regulation Policy

Food Safety Enforcement will be taken in accordance with the Council's documented Enforcement Policy which is currently drafted and awaiting approval.

## 3. Service Delivery

### Interventions at Food and Feed establishments

3.1 The authority's policy on interventions	<p>Interventions are in the main visits to businesses for the purpose of inspection and/or sampling of the business to check compliance (frequently encompassing other trading standards legislation that applies including fair trading, age restricted sales, metrology). Recognising the continuity of the food chain it is necessary to consider aspects of animal health and welfare, primary production of food, animal feed, surplus food and animal by-products and food standards that apply to a food or feed business. We work with businesses, offering business advice and primary authority partnerships to assist businesses to improve or maintain their compliance. Intelligence, including complaints, is prioritised for an appropriate response including retaining as intelligence. Businesses are risk assessed according to the method incorporated into the dedicated database, Civica's Authority. This is currently modelled on a risk assessment process designed by the National Trading Standards Board. Premises may have their risk rating raised or lowered according to the assessment of confidence in the business management, which is assessed following inspection or contravention.</p> <p>This year's plan is outlined in Annex 1.</p> <p>Food and animal feed standards enforcement is an integral part of the Service and therefore it is not possible to accurately detail financial expenditure for it.</p>
3.2 Food and Feed Complaints and enquiries	<p>The Citizens Advice Consumer Service is the initial point of contact for most consumer complaints and enquiries on Trading Standards matters. Appropriate complaints are referred to the Service where they are prioritised and may be investigated. We are therefore critically reliant on the availability of that Service, and their competence, to identify the nature of the complaint so that it may be correctly prioritised according to our complaint grading policy. The complaint grading policy has been revised to reflect the reduced resources available and will focus on those matters causing most risk and harm.</p> <p>Therefore, food and feed issues affecting the safety of consumers are prioritised over other food and feed complaints.</p> <p>Complaints about food will be dealt with in accordance with the <a href="#">Trading Standards Service Enforcement Policy</a>.</p> <p>The Food Safety Act 1990 Code of Practice directs which complaints are more appropriately dealt with by Food Safety officers in the</p>

	Environmental Health Service of North Northamptonshire Council Regulatory Services. There is a local memorandum of understanding with the Environmental Health Services of North and West Northamptonshire Regulatory Services to ensure consumer complaints are dealt with appropriately and efficiently.
3.3 Home Authority Principle and Primary Authority Scheme	<p><u><a href="#">Primary Authority Scheme</a></u></p> <p>It is Service policy to comply with the requirements of the Primary Authority scheme where we are the enforcing authority.</p> <p>We have delegated authority to enter into Primary Authority partnerships under the Regulatory Enforcement and Sanctions Act 2008. The Service offers Primary Authority agreements to eligible businesses, and charges for business advice that extends beyond basic signposting and identification of legal duties. Basic advice is provided to start up and small businesses without charge. The demand is likely to be around 200 enquiries for business advice across the service. The applicable fees are published on our website.</p> <p><u><a href="https://www.northnorthants.gov.uk/trading-standards">https://www.northnorthants.gov.uk/trading-standards</a></u></p> <p>The Service does not act as Home Authority for those businesses who do not wish to enter into a Primary Authority Partnership, however the Service will provide advice and guidance on a cost-recovery basis. Any referring authorities with issues concerning non-Primary Authority businesses are asked to contact the business directly, conclude their own investigations and notify the outcome to this Service for intelligence purposes. The intelligence may be used on inspection or other regulatory intervention with the business.</p>
3.4 Advice to Business	<p>The Service provides advice to business through inspections, visits, telephone enquiries, occasional mailshots, press releases, the website, and occasional talks.</p> <p>Contact is maintained with the business community by liaising with business organisations.</p> <p>Where appropriate businesses, especially start-up businesses are directed for self-help advice via the <u><a href="#">Business Companion website</a></u>, pages on <u><a href="http://www.gov.uk">www.gov.uk</a></u> and the <u><a href="#">FSA website</a></u>. More complex issues are dealt with by officers under the business advice policy.</p> <p>The Service has contacts with the trade support network 'Made in Northamptonshire' and SEMLEP Growth Hub. It is recognised that some changes in legislation are appropriate for a business seminar approach.</p>
3.5 Food and Feed Sampling	A Survey programme is being prepared for 2021-22 for food and feed. There is a budget of £8,000 for all sampling and analysis across NNC Trading Standards. This budget will be prioritised on a risk assessed basis across all the Service's responsibilities. Samples are submitted to the appointed Public and Agricultural Analyst laboratories and occasionally to other test houses where necessary.
3.6 Food and Feed investigations	Contraventions of food standards legislation are assessed using the National Trading Standards Intelligence Operating Model tasking process that considers appropriateness of enforcement action in accordance with relevant policies. Resource commitments for food standards

	investigations vary according to the nature and complexity of infringements detected.
3.7 Food and Feed Safety Incidents	Food Alerts are received through the FSA Smarter Communications interface, which is accessible to all registered food officers, and email contacts from the Food Standards Agency. These are monitored by relevant staff. Relevant alerts requiring action are responded to. The authority liaises with other local authorities, trading standards and environmental health to co-ordinate responses to alerts that relate to food standards, including publicity and communication with traders, as required and as practicable.
3.8 Liaison with Other Organisations	The Service is a member of Trading Standards East Midlands (TSEM) which coordinates work on Food Standards, Feed and Agriculture Enforcement across the region where it is appropriate to do so. The Service also has access to a national 'Knowledge Hub' website for specialist officers related to food labelling and feed matters. Regular contacts are maintained with the North & West Northamptonshire Food Liaison Group, where the seven ex-District Council EHOs co-ordinate enforcement of food hygiene and food standards. The Trading Standards Manager attends the NNC Regulatory Services Managers Group. Where appropriate, liaison takes place with DEFRA, the FSA, DoH, and the Animal and Plant Health Agency regarding enforcement of animal health and welfare controls and other relevant bodies as appropriate.
3.9 Food and Feed Safety and Standards promotional work, and other non-official controls interventions	<p>The Service maintains website links to sources of advice and has previously produced additional guidance, when appropriate, for businesses and consumers as can be found on our website:  <a href="https://www.northnorthants.gov.uk/trading-standards">https://www.northnorthants.gov.uk/trading-standards</a></p> <p>The primary source of business guidance is supplied by CTSI through the Business Companion website <a href="https://www.businesscompanion.info/">https://www.businesscompanion.info/</a></p> <p>Businesses are directed to Business Companion as well as government websites such as the <a href="#">Food Standards Agency</a> and <a href="http://www.gov.uk">www.gov.uk</a> to provide consistent guidance.</p> <p>Media releases will be used to promote food standards issues where appropriate. It is Service policy to inform the local media of all legal proceedings taken by the Service to assist in education of businesses and consumers and to act as a deterrent to those who may act irresponsibly or flout the law.</p> <p>Where appropriate we will seek to liaise with colleagues within North Northamptonshire Council in relation to public health issues relating to food and feed.</p>

#### 4. Resources

4.1 Financial Allocation	<p>Overall resources allocated to the Trading Standards Service are detailed in the Service Plan. Food and animal feed standards enforcement is an integral part of the Service and therefore it is not possible to accurately detail financial expenditure for it. It is estimated that approximately 20% of operational activities will be dedicated to food standards work although this may continue to be affected by business closures due to Covid-19.</p>
4.2 Staffing Allocation	<p>One permanent enforcement staff member is currently actively involved in food and feed enforcement although he is not purely dedicated to food standards enforcement. This officer holds appropriate qualifications and experience, meeting the requirements of Food Safety Act 1990 Code of Practice for food standards and feed enforcement. In addition, a short/medium-term external contracted officer has been employed. From time to time, other qualified officers from within the Service and West Northamptonshire (mutual aid) also contribute to enforcement activities. All Enforcement Officers within the Service are required to undertake a range of trading standards obligations some proportion of which could include food and/or agriculture if suitably trained.</p> <p>One new enforcement officer is currently undertaking the CTSI CPCF and will be undertaking either the Food or Feed module from September 2021. Longer term, there is also 1 RCO apprentice who will go on to complete the CPCF too, again completing either the food or feed element.</p> <p>Any business, regardless of business sector, that shows an intentional, reckless, or repeated disregard for the principles of fair or safe trading will be tackled as a matter of priority, where resources allow. The revised FSA Code relating to inspection and business risking will be taken into account when planning activities within the resources available.</p>
4.3 Staff Development Plan	<p>All officers have an annual appraisal with their Line Manager that identifies their training and development needs. "Refresher" training will be provided for any staff returning to food standards enforcement work. Training will also be given to take account of any new legislation. The Food and Feed Codes of Practice specify revised continuing professional development and training: at least 10 hours relevant to food standards and safety and 10 hours' professional practice; and 10 hours relevant to feed standards and safety during 2021/22.</p>

## 5. Quality Assessment

5.1 Quality assessment and internal monitoring	Procedures relating to all operational activities, including food and feed enforcement will be reviewed as appropriate during 2021/22 as part of the ongoing transformation of local government services in North Northamptonshire.
--	---

## **6. Review**

6.1 Review against the Service Plan	A review of Food Standards Enforcement for 2020/21 [Northamptonshire County Council] is attached as Annex 2.
6.2 Identification of any Variation from the Service Plan	There have been variations from the 2020/21 plan primarily as a result of the Covid-19 Pandemic. Variation has been in line with the prevailing version of National guidance 'COVID-19 Local Authority Enforcement Q&A' issued by the FSA throughout the year.
6.3 Areas of Improvement	The newly created Council is embarking on a challenge to transform services in the medium/long term. There are strict financial limitations in which it can work.

## **FOOD AND FEED STANDARDS INTERVENTION PROGRAMME 2021 -2023**

All High Risk businesses will receive an intervention visit or where appropriate some other kind of contact.

We will carry out a limited programme of food standards inspections and conduct limited sampling surveys taking into account resource availability, and Service priorities. Complaints and referrals from the public and other authorities and intelligence received from the Food Standards Agency and other sources assist in identifying areas of work as well as the previous history of compliance.

Limited surveys of particular food business sectors will be conducted to assess compliance with the results being considered as to appropriate further action.

There will be additional consequences not only for the Service locally and nationally but the county and country as a whole from the effects of lockdown resulting from a global pandemic of Covid-19. The magnitude of the easing of controls will continue to be felt. This includes an impact on all planned and unplanned interventions as well as an impact on ongoing and future investigations and prosecutions due to the closure of the courts.

<b>Business sectors Food</b>	<b>Activity</b>	<b>Target Numbers of Premises 2021-2023</b>
Food Standards (FS) Planned visits – Total		
FS Planned - High Risk	Annual intervention due	100%
FS Planned - Upper Medium Risk  Targeted activities across business sectors. Retail – including National chains (having regard to Primary Authority) and other UM risked businesses	Biennial intervention due  Intervention by survey inspection or sampling (visits; mailshot to others) across business types	As appropriate in line with FSA Covid-19 recovery period  Work will be tasked based on risk assessment and available resources at the relevant time.
FS Planned – Lower Medium and Low Risk	Intervention by survey, sampling particularly regarding allergen information intelligence from complaints. Use of mailshot if appropriate.	Work will be tasked based on risk assessment and available resources at the relevant time.
FS Revisits	As appropriate	
FS responsive – inspections and other interventions to assess Food Standards compliance	Conducted following complaint, intelligence, visits prompted by other regulatory activities etc.	Work will be tasked based on risk assessment and available resources at the relevant time.

<sup>3</sup>**Feed visits**

	Target – FSA contracted
Manufacturers (A01-8 and R1-4)	0
Co-product (R12)	2
Importer	0
Stores (R9)	1
Distributor (R1-3, R5)	0
Transporter (R8)	0
On farm mixer (R10 and 11)	1
Pet Food Manufacturer (R6)	1
Supplier of surplus food (R7)	6
Food Hygiene at Primary Production	
Livestock Farm (R13)	3
Arable Farm (R14)	1

Farm visits for feed hygiene and/or food primary production may be combined with visits for animal health and welfare complaints or enquiries.

Sampling Activity	Target
Food samples (products submitted for analysis/report)	£2000 budget allocation
Feeding stuffs samples	<sup>4</sup> As appropriate

1. Inspections prompted by application for registration under a code that requires Annex II HACCP to be in place. The need for a visit will be assessed individually.
2. The value given is an estimated target; actual numbers of such businesses that should be registered under the feed categories are undetermined.
3. These are the figures for 2021-22 and maybe subject to change in 2023
4. Samples may be taken in response to complaints and investigations.

Work is continuing to improve database accuracy for food and feed premises.

**REVIEW OF FOOD AND FEED SAFETY AND STANDARDS WORK 2020/21**  
**[Northamptonshire County Council]**

<b>Business sectors Food</b>	<b>Activity</b>	<b>Target Numbers of Premises 2020/21</b>	<b>Actual</b>
Food Standards (FS) Planned visits – Total

Supplier of surplus food (R7)	8	6
Food Hygiene at Primary Production		
Livestock Farm (R13)	6	5
Arable Farm (R14)	1	1

Farm visits for feed hygiene and/or food primary production may be combined with visits for animal health and welfare complaints or enquiries.

Sampling Activity	Target	Actual
Food samples (products submitted for analysis/report)		14
Feeding stuffs samples		3

Surveys conducted:

Survey	TOTAL SAMPLES	RESULT TYPES	Unsatisfactory
None undertaken due to Covid-19		Satisfactory	

## 1. Food Standards Summary 2020/21 [Northamptonshire County Council]

### Background: Staffing

Following previous cuts, a bid was made to reinvest in the Trading Standards Service during 2020. 8 jobs were advertised in total, for both experienced and new officers. Of the officers applying for the 2 Senior Authorised posts, 3 of the 5 were food qualified. 2 Senior Authorised posts were appointed to, 1 of which was food qualified. Of the 2 Authorised officers appointed, only 1 was experienced but not food qualified. During a 2nd round of recruitment for an authorised officer, there was only 1 non-food qualified applicant, who was appointed. To increase capacity, we have secured

and retained 2 contract officers who are food qualified. New officers will be required to undertake the food module as part of their qualification.

#### Background: Local Government Re-organisation

This has been undertaken in the last 12 months while the Covid-19 pandemic has been ongoing. The County Trading Standards Service has been disaggregated across North and North Northamptonshire unitary councils. Management focus has been to ensure that both new Services transitioned as a safe and legal authority on Vesting Day. This also impacted on officers delivering food controls to a lesser extent. The process of transformation will now be undertaken in the next 12- 24months resulting in trading standards becoming part of the new Regulatory Services.

#### Background: Brexit

The impact of the EU exit has not yet been felt by the Service. There are still dates which may impact on the smaller teams going forward into 2021/22 but they are not as yet quantifiable.

#### Background: Covid-19 outbreak and Intervention visits

Due to the Covid-19 pandemic the need for routine food standards inspections was evaluated in light of prevailing FSA Guidance as it developed throughout the year.

The prioritisation advised by FSA was found to be very much in line with our own vigilant management of scarce resources following Service cutbacks in recent years.

Issues dealt with in 2020/21 included:

#### Formal investigations concluded

- Op Nightingale – a prosecution resulting from a complaint of an allergic reaction to a takeaway meal requested to be peanut free; sentencing was postponed until November 2020 due to the COVID-19 national lockdown. The Company and Director pleaded guilty at the first hearing. The Company was fined £10,000 and the Director received a 4 months' custodial sentence, suspended for 24 months, with 40 hours' community service to be completed within 12 months. Costs of £5,500 were awarded. The case received local media coverage which was picked up and shared by the campaign group 'Allergy Action'.
- Op Aldaniti – Company & Director signed a Simple Caution in June 2020 [due to a recognition of the issues and instigation of more robust controls] having sold takeaway meal requested to be egg-free but found to contain egg during an allergen project undertaken by the service in late 2019.
- Incident 365955 – a serious allergen incident involving a schoolchild with multiple allergen diet requirements during a lunchtime in November 2020. The investigation closed in April 2021 inconclusive beyond all reasonable doubt as to the cause or the offender.

#### Formal investigations in progress

Two investigations are continuing, both relate to Food businesses in North Northamptonshire:

- Op Australia an investigation resulting from the allergen project work after business advice had been given previously. Milk was found to be present in a meal requested to be milk-free. The Company are pleading not guilty, and the case is scheduled to be heard in February 2022.
- Incident 369416 investigation resulting from a complaint of an allergic reaction to a takeaway meal requested to be milk-free in March 2021.

#### Food Alerts for Action

Only one was received [Ref: FSA-FAFA-01-2021] during the year and any action necessary was taken.

### Supporting businesses

The Service operates the Primary Authority Partnership Scheme. Northamptonshire County Council had 21 food PA Partnerships.

- 37 requests for advice for food and 6 for feed were completed in 2020/21
- 26 requests for food and 9 for feed were completed from business requesting non PA business advice.

Officers working from home during the pandemic were able to allocate more time to reviewing the trading standards premise database and updating it with information from Food Business Operator's registrations from all areas of the County, clearing the backlog of over 600 outstanding registrations.

## **1. Feed Summary**

Feed hygiene, together with hygiene requirements in the primary production of food, continue to be the focus of animal feed interventions. It is closely related to farm animal health and welfare complaints and they are often considered together. The pandemic brought a slow start to the planned inspections. In-line with the Food Standards Agency guidelines and the County Councils local decisions, visits were carried out remotely which was a new way of working for all. A number of the visits required a focussed follow up onsite visit and remain to be completed in 2021/2022. The requests for registration dipped slightly as there were fewer inspections carried out by the Assurance Schemes (which often prompt registrations). There was however a slight increase of small pet food manufacturers and some businesses requiring registration as a result of EU Exit.

## LEGISLATION ENFORCED

North Northamptonshire Council has a statutory duty to enforce the majority of consumer protection and fair trading legislation. Additional legislation is enforced where it contributes to achieving the aims and objectives of the Service and Unitary Council. The Service enforces over 70 Acts of Parliament, over 1000 associated Regulations and Orders, and a substantial range of directly applicable EC regulations under the European Communities Act 1972.

Accommodation Agencies Act 1953

Administration of Justice Act 1970

Agriculture Act 1970

Agriculture (Miscellaneous Provisions) Act 1968

Agricultural Produce (Gradings and Marking) Acts 1928 and 1931
