To whom it may concern

I understand that the above public house has applied for amended opening times, drink and music licence.

As a resident who live's opposite the pub I wish to express my major concern with the application from 8am to 1am. I understand the 1am is for Friday and Saturday evenings only, however the 8am is daily.

I think this could be intrusive on our lives who live close to the pub. This could also cause the pub to become a 'late' drinking venue and would result in more noise caused by cars and people leaving in the small hours.

The outside music licence is also a major concern to those living near to the pub, as again this would become a noise issue late in the evenings.

The pub has recently allowed a cafe into the premises which opens daily at 10am, therefore why is there a need for an 8am start time for the licence.

Hope you will take my concerns into consideration when reviewing this application.

If you require a hard copy letter please do not hesitate to contact me.

With regards

Dear Sir/Madam,

Apologies for this intrusion, but keen to express a major concern with a current application from The Half Moon in Grendon on two issues:

- on Friday & Saturday, the extension of hours until 0100
- outdoor music to be permissible until late

The new Publican is making a very positive impression with the village and her customers; her enthusiasm is wonderful! However, these requests are too intrusive on those living near the pub, which includes us. Not only the potential noise late into the evening (cars and people), but also safety issues with cars arriving from other locations looking for 'late' drinks.

We are not the type of people, who complain for no reason, but we are worried by the potential results should these changes be permitted!

Kind regards.

Yours sincerely,

[REDACTED]

Comments from Grendon Parish Council to this application would be

The Parish Council very much supports the re-opening of the Half Moon Inn and has no objections to the bringing forwards of the opening times and closing times Sun -Thurs. However, we are concerned about the noise disturbance the application for both live & recorded music inside & out and the later closing times of 1am on weekends may cause for neighbouring properties.

Kind regards

Subject: RE: Licensing Representation

Afternoon,

Environmental Protection would like to make a representation on this application in relation to the potential for noise. The public house is situated in a residential area with sensitive noise development on all sides with low background noise levels particularly at night time.

The areas of the application we would be concerned about are the later closing times at 1.00 am which could result in noise disturbance with patrons leaving, voices travelling and car movements which would be very hard for the pub owners/DPS to control and also the music inside and outside. Controls could potentially be placed on music inside the public house, but externally the music will travel and it would be difficult to place sufficient controls to prevent a noise nuisance from arising.

In terms of complaints the council have had no recent complaints, but I am aware of historic complaints from this venue in relation to people noise outside and also amplified music and there is the potential for this to re-arise if it is not managed correctly.

Kind regards
