### Terminology key

TBC	To be confirmed
TBD	To be determined
n/a	Not applicable
Actual	The actual data (number/percentage) achieved during the reporting period
Benchmark	A comparator used to compare the Council's performance against. The 2020/21 average for Unitary Councils in England has been used where available unless otherwise stated.

TBC	T11	% of Freedom of Information Requests completed in 20 working days	 <p>Apr May Jun Jul Aug Sep Oct Nov Dec Jan Feb</p> <p>— Actual — Target ..... Linear (Actual)</p>	93%	82.62%	82.22%	85.87%	83.92%	88.10%	85.71%	↓	Higher is better	85%	17 active requests as at 18/03. Performance has stayed above target, which when contextualised with lack of resource over the team is impressive. Performance has declined slightly over the last two months, due to members of the requests team taking on added responsibilities and increased amounts of annual leave taken.
TBC	T12	% Environmental Information Regulation Requests completed in 20 working days	 <p>Apr May Jun Jul Aug Sep Oct Nov Dec Jan Feb</p> <p>— Actual — Target ..... The team need to remain vigilant on performance as they will soon be taking on full responsibility for the processing of EIR requests which is an increase to their already high workload.
TBC	T13	% Individual Rights Requests completed in 1 calendar month	 <p>Apr May Jun Jul Aug Sep Oct Nov Dec Jan Feb</p> <p>— Target — Actual ..... Trend</p>	81%	74.42%	92.68%	100.00%	86.03%	70.00%	93.33%	↑G	Higher is better	90%	4 active requests as at 18/03. Staff members who have started to take on responsibility for SARs are becoming more experienced, which should continue to increase performance. However, the team need to remain vigilant with workloads across all types of request until further resource is added.

Due to the Covid pandemic reassessments have not been carried out resulting in a big reduction in those businesses having awards and eventually all of them will expire. The project needs a complete rebrand and restart now that we are North Northants and although funding is being secured in conjunction with colleagues in Public Health this is a significant undertaking so it will be next year before any progress can be made.

Q2 data is now verified. Food waste is currently collected in East Northants and Corby. Factors that affect food waste performance include the level of multiple deprivation, and the availability of alternate capacity such as residual containers. The waste team intend to carry out awareness raising activity during 22/23 to increase participation in food waste collection. Removal of food waste from other waste streams, such as residual waste, is a key activity for effective waste collection systems, and requirements of The Environment Bill 2021 mean that food waste collections should be extended to all households from 2025.
TBC	T60c	Household kerbside collection: Tonnes of material collected through kerbside schemes - Garden waste		n/a	8387.75	8532.85	3789.60	21673.46	496.88	466.38	↓	No polarity	No target - tracking indicator only	Garden waste tonnages are affected by the greatest amount of seasonal variance and is not collected in Wellingborough during the period November to March. Yields for this material increase during Q1 and Q2 and drop off in the winter by approximately 60%. Arisings for garden waste are also affected by weather conditions, in dry years, the overall yield will be reduced.

Lower visitor numbers in winter months means a reduction in total waste and therefore reduction of percentage waste reused, recycled or composted. There is also no guarantee that the quality of waste being brought to the Household Recycling Centres (HWRC) is fit for reuse or recycling, therefore these can see monthly variations. Compost tonnages is the area most affected by seasonal variance so yields for this material drop off in the winter.

Exclusions are impacted by a range of factors within schools and the local authority, as well as seasonal trends which result in higher levels of exclusions at certain times of the year. Covid restrictions also have an impact on schools and pupils.

The service continues to work diligently on ensuring timely decision making is maintained. Cases that are rag rated RED are prioritised and decisions made within 1 day. There is ongoing improvement work in the Multi Agency Safeguarding Hub (MASH) to continually increase quality and enhance performance. This is an area supported by our Partner in Practice (PIP). The MASH model is being strengthened to ensure threshold is applied robustly and professionals are required to refer to MASH in writing with appropriate consent as appropriate. Review of front door completed by PIP, initial recommendations included in the service plan for action. Follow up visit to be completed.

Audit and review for learning is ongoing. It is anticipated that the strengthened model in mash will continue support appropriate reduction going forward. Steps have been taken to strengthen the Early Help partnerships with Partnership Support Team (Early Help Multi Agency Safeguarding Hub (MASH)) being placed in the MASH pods and a leaner step down process. The high number of cases stepping down now presenting challenges in regards to capacity in Family Support/Early help partnership.

All managers monitor this very closely via daily reports. A narrative is provided for cases that go beyond 45 days and this remains a very small minority. In addition to timeliness, we work on increasing the quality of assessments and more effective use of Signs of Safety (SoS) in our interventions. Partner in Practice (PIP) peer review has identified improvements in the quality of assessments.

The duty Child Protection (CP) Chair available for a discussion, which the managers can access, intended to reduce the proportion of ICPCs that don't result in a CP Plan. Safeguarding & Quality Assurance Service (SQAS) continue to monitor timeliness of every CP conference request, raise exceptions with all referring managers at individual case level, highlight specific team or service performance concerns, and celebrate good practice & sustained improvement in this key performance measure.

There is an initial indication that the impact of the pandemic may have contributed to increase in stress and pressure for families and consequently escalation of needs. An individual review of cases is completed by the service managers.
TBC	T30 (KPI 7)	Children who've been in care 2.5 yrs or more, and of those, who've been in the same placement for 2+ years / placed for adoption (%)	<p>Apr May Jun Jul Aug Sep Oct Nov Dec Jan Feb</p> <p>— Actual — Target — Trend</p>	70%	65% (Jun)	68% (Sep)	72% (Dec)	72%	73% (443)	72% (441)	↓ A	Higher is better	66% (Tolerance 56% - 70%)	66% (Tolerance 56% - 70%)	Arrangements remain in place to support long term placements at the earliest opportunity. Performance remains above target. The aspiration is for more children to live within stable and nurturing homes for the duration of their childhoods. Focus is on provision of support to prevent likelihood of placement breakdown and includes developing skills, knowledge and resilience of foster carers through the public health funded fostering support project, use of placement stability meetings and greater involvement of birth families through progressive contact arrangements.

Performance has been good since the beginning of the pandemic but began to see declines from June towards pre-pandemic levels. This is in the context of rising care numbers and the continuing challenges in identifying placements for children with specific needs which means they can experience a number of placement moves in quick succession until an appropriate home is identified. Consideration of various options to improve sufficiency is continuing, including exploration of capital investment, additional in house resources, as well as improved engagement with the market.

TBC	T73	Therapy Service-Total Cases of Waiting for Booking & Assessment		n/a	635 (Jun)	638 (Sep)	400 (Dec)	429	396	429	↑R	Lower is better	No target - tracking indicator only	<p>Increase was due to the team carrying a number of vacancies and absences, requiring case loads to be re-distributed throughout the team, reducing new allocations.</p> <p>January is always a lower referral month so we would expect a drop in January.</p> <p>There is an increase of 29 from December to February. The increase is only 35 from January to February.</p>

Adult Social Care - Domain Two: Delaying and Reducing the Need for Care and Support														
TBC	T74	Long-term support needs met by admission to residential and nursing care homes, per 100,000 population (older people)		511.7	175.87	324.66	489.28	573.11	527.38	573.11	↑	No polarity	No target - tracking indicator only	This is a cumulative total. Whilst we always want to avoid admissions to care homes this will always increase since care home admission is the right move for some people.
TBC	T75	Delaying and reducing the need for care and support		84.60%	59.9%	59.8%	60.1%	60.4%	59.2%	60.4%	↑G	Higher is better	No target - tracking indicator only	This is a cumulative total and reflects the proportion of people going into short term services, rather than into long term care.

Public Health - please take note of monthly headings (Public Health data usually received a month in arrears)														
TBC	T76	Smoking quit rate at 4 weeks		n/a	61.5% (Jun 2021)	61.1% (Sep 2021)	59.7% (Dec 2021)	68% (Jan 2022)	59.7% (Dec 2021)	68% (Jan 2022)	↑G	Higher is better	60%	Lag in data for the preceding 2 months (Reported monthly only so latest value is reported at each quarter and YTD)
TBC	T77	% of infants due a new birth visit that received a new birth visit within 14 days of birth		86.8%	97.8%	96.8%	97.50%	98.2% (Jan 2022)	97.70%	98.20%	↑G	Higher is better	90%	This indicator represents the whole of Northamptonshire, 2021-22 data not available at a North Unitary level.  February 2022 data will be available in April's report.
TBC	T79	% of in-year eligible population offered an NHS Health Check		1.5%	2.5% (Jun 2021)	2.3% (Sep 2021)	1.42% (Dec 2021)	1.03% (Jan 2022)	1.42% (Dec 2021)	1.03% (Jan 2022)	↓R	Higher is better	8.4% (100% annual target)	Health check activities are calculated based on the location of the GP surgery that the patient is registered with, rather than the residence of this patient. Some patients may be residents of West Northants but registered to a GP in North Northants. These patients are included in the North rather than West.  GPs are still very much recovering and capacity to deliver NHS Health Checks in practices is still limited, considering the winter pressures and the backlog from the 1st and 2nd wave that GPs have to focus on. Compared with national figures, we are much in line with national performance. Benchmark is England Q1 2021/22.
